

Malapascua & Coron Thresher sharks & WW2 Wrecks

Malapascua is the only place in the world where divers can predictably see thresher sharks. The sharks come up from the deep for a clean on Monday Shoal and it is not uncommon to see multiple individuals during one dive.

Exotic Resort was the first to start diving with Thresher sharks. The dive centre has a friendly and slick operation and with six boats available, there are no issues about missing out on anything! The resort is perfectly located right on the picturesque sandy white Bounty beach.

Coron is home to 11 Japanese wrecks, sunk by the Americans in 1944. All the wrecks can be dived recreationally with the Irako being the deepest at 42m.

Apart from wreck diving, Coron offers stunning scenery and a few interesting non-wreck dives like Gunter's Cave and Barracuda Lake.

Sangat Island resort is perfectly located close to the main cluster of wrecks, less than a 10 minute boat ride away. Away from the busy little town, guests will certainly feel cast away in nature on this picturesque island with its own picturesque white sand beach. The open-air bar offers superb views of the starry night sky.
